PROFESSIONAL SUMMARY

Results-driven **Data Analyst** with experience in **exploratory data analysis, SQL, data wrangling, and predictive analytics**. Familiar with **ETL concepts, database management, data architecture, and AI/ML data pipelines**, with a strong interest in AIML, GenAI, LLMs and building scalable data-driven solutions.

EDUCATION

Acropolis Institute of Technology and Research

Bachelor of Technology in Computer Science Engineering – CGPA: 7.74/10

Indore, India

Nov 2022 – June 2026

PROFESSIONAL EXPERIENCE

Data Analyst Trainee

Apr 2025 – May 2025

MedTourEasy

Remote

- Performed **EDA and data wrangling** on 90+ demographic variables, uncovering generational trends that informed strategic policy recommendations.
- Developed 5+ **statistical models** using Bayesian inference and probability theory, improving prediction accuracy by 15% for targeted outreach initiatives.

KEY PROJECTS

KISSAN-MITRA – AI-Powered Smart Agriculture Platform | Python, Flask, TensorFlow, YOLOv8

MongoDB, Firebase

Mar 2026

- Developed an AI-driven smart agriculture platform providing crop disease detection, yield prediction, weather forecasting, and real-time mandi price information to assist farmers in decision-making.
- Built modules for weekly weather forecasting, yield prediction, and mandi price analysis, helping farmers make data-driven decisions for cultivation and selling crops.

Customer Churn & Retention Analysis | Python, Pandas, SQL, Scikit-learn

Sept 2025

- Performed **exploratory data analysis** on 500K+ customer records, uncovering key churn drivers such as contract type, tenure, and payment method.
- Designed a **predictive churn model** using logistic regression achieving 89% accuracy.

TECHNICAL SKILLS
